DEATH OF COL. W. D. CHIPLEY. AFTER GREAT SUFFERING THE SPIRIT OF FLORIDA'S GREAT AND BELOVED CITIZEN WINGED ITS FLIGHT TO ITS HEAVENLY HOME. No greater sorrow ever fell upon a section of country, than that of West Florida, when the news was whispered abroad Wednesday morning that their beloved friend, Hon. W. D. Chipley, had passed away. The news was expected, though we could scarcely realize that the sad end had come. Never was a man more universally beloved in any section of a country than was Col. Chipley, in West Florida, in fact the whole State. He was faithful and untiring in his efforts in her behalf, and his death will be felt most keenly in the future. His Herculean task to push Pensacola, his adopted city, and all of West Florida ahead, had no limit; his work was as great as his influence, and the latter was unlimited. The whole is a debtor to him to the extent that it can never be repaid. Among men he was a leader, not aggressive, but always most progressive. In his home he was a devoted husband and father; in business a man of intellect and energy that brought success; and among the people, always a friend, one that will be sadly missed, and one whose place can NEVER be filled. His reward, the seeds of which he sowed so richly, so widely, so generously, is now to be fully and gloriously realized—in the arms of his blessed Creator. His remains were interred Friday at Columbus, Ga., the city of his nativity. Friends of his boyhood days, and friends from his adopted State followed his body to its last earthly resting place, and mingled their tears together over the grave of the one whom they loved so well. The people's great, good friend and the State's benefactor, is gone. Peace to his ashes; and resurrection of eternal life to his soul. THANKSGIVING DAY. Many home dinners and family gatherings were the feature of the day in and about Chipley. In the morning Revs. Mr. Urtan and Mr. Wilson, in town, gave very interesting sermons on the early customs of our forefathers, regarding this day; and Revs. Mr. Gale of Jacksonville and Mr. Woodruff of Westville preached interesting Thanksgiving sermons at Panama Park in the afternoon. No community could have observed the day with more thanksgiving and praise than did the people of Chipley the surrounding country. Some of the younger folks took advantage of the day for a game of ball, while many others took their guns and hied to the woods; these things are not in accord with the true observances of the day, and should not be encouraged. Lets have more home gatherings, more thanksgiving, more praise; and if you have nothing else, be thankful to the good Lord that your life is cast in the best land under the sun. With this issue we will be compelled to cut a few of our old subscribers, they being so far in arrears. On the first of January we will make still another cut if a few more don't come up. We dislike very much to have this to do, but paper, ink and other expenses, is cash out with us, and we will be compelled to have a little cash in return. THE GREATEST DISCOVERY YET. W. M. Repline, editor Tiskilwa, Ill. Chief, says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain and sure cure for coughs, colds, and whooping cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at J. R. Farrior's drug store. HOW TO PREVENT PNEUMONIA. At this time of the year a cold is very easily contracted, and if left to run its course without the aid of some reliable cough medicine is liable to result in that dread disease pneumonia. We know of no better remedy to cure a cough or cold than Chamberlain's Cough Remedy. We have used it quite extensively and it has always given entire satisfaction.—Olnah, Ind. Ter. Chief. This is the only remedy that is known to be a certain preventative of pneumonia. Among the many thousands who have need it for colds and grippe, we have never yet learned of a single case having resulted in pneumonia. Persons who have weak lungs or have reason to fear an attack of pneumonia, should keep the remedy at hand. The 25 and 50 cent sizes for sale by R. B. Bellamy and J. R. Farrior. There is at my place, a yellow, or sandy colored male hog, two years old and unmarked. Owner can get him by proving property, and paying for care, and for this notice. J. B. LOCKEY, Chipley, Nov. 20, 1897.

L. HILTON GREEN, President. J. E. WELLS, Vice President. R. M. BUSHNELL, Cashier. CITIZENS NATIONAL BANK. PENSACOLA. Correspondence Solicited. No Cure—No Pay. That is the way all druggists sell GROVES Tasteless Chilli Tonic for Chills and Malaria. It is simply iron and Quinine in a tasteless form. Children love it. Adults pay for it to bitter nauseating tonics. Price, 50c COMMUNICATED. Mr. EDITOR. I wish to inform the BANNER that on the east bank of the Escambia river, on the L. & N. R. R. line, there is a place called Mulat; the old name was Duval and it is in Santa Rosa county, 104 miles west of Chipley, and it has a bridge four miles long. That long bridge is the cause of my writing to you; I don't want you to shorten it or take it away; but you could save us here by publishing the fact that tramps are not allowed to cross it, and while it saves Pensacola, it dams up the road and keeps them at Mulat. When a tramp gets to Chipley he could be turned South to St. Andrews, or north to Graceville, and so his life would be saved; for we are going to "lynch" all of them after Christmas. At present we put them to work in a saw mill and they go into the woods after one day's work, and disappear from us. We have a great big wheel barrow and when it is full of saw dust, it is a load for an ox we try them at that and they are gone at night. A grand discovery was made here at the mill, (which will not be patented) and it is this: Working in a saw mill hardens the hands, develops the muscles, destroys that demon called insomnia, gives a great appetite, makes the fat lean and the lean fat, makes the old young and the young old, at one time I thought there was nothing like Dr. Bellamy's, of Chipley, little early risers and tonics; but now, I find the making of saw dust beats all, and if he wants to keep ahead of the progressive march of science, he must start a saw mill and make his many patients work in it; better yet, he could send them to Mr. D. Davis, and have them work for him, say, five hours a day and only two days in a week and they are cured. Some one reports that Chipley is a dry town, and that Vernon is now wet; should this be so, Vernon could annex Chipley, otherwise, there will be a long time between drinks. I fully sympathize, for Mulat is also dry, and a fellow feeling makes us wondrous kind. But then Chipley is the home of the peach and the peach is the home of the nectar, and that is drink divine; besides, there is Mr. Danley, who can make the Scuppernon wine, a drink fit for Bacchus himself. So the Chipleyites should not be down spirited in any case. May the BANNER be always waving, and its editor's shadow never grow less. We are impatiently waiting for that gold wave of prosperity, so often promised, yet so far from realization. It is told here that "a mountain of gold has been found in Alaska and that the sound money men are going to demonstrate gold, and make silver the single standard." BUTTON SAW.
